## **Getting Started**

02/20/2024 4:59 am EST

Getting started with Autoaddress is a simple three-step process.

## 1. Create an Autoaddress account

Follow this link to navigate to the Account Center sign-up page and enter your details, no credit card required.

https://account.autoaddress.com/signup/

## 2. Create an Integration

We have created a sample JavaScript control Integration for you, which is the easiest way to add Autoaddress to your website. If you want to integrate directly with our API or a different custom integration then navigate to the Integrations page and create a new integration.

## 3. Preview it in action

Click on the dashboard Try it out now panel to navigate to the preview setting of your Integration.

We've pre-selected every country so you can go ahead and type any address to see how it works.

We've included a simple World Sample Address selector on the right, just choose a Country and a Language and you'll see a sample address. Click on *Autofill this address* and we'll mimic a user in that country typing the address into our form so you can view their experience.

Test your integration	
Type any address in the field below OR pick an interno autofill it.	ational sample address and we will
Autoaddress Preview	Choose sample address Country
Enter your address	Q United States
(. Type any address	English >
	York, New York, 10017-1012
	"Autofill will type the first characters of the address. Choose the address from the list to see the result.
